

17 Story prompts for (5th grade) students

#1: Poverty

We need to end poverty. What do you think we can do to make sure that everyone has access to food, shelter, clothing, healthcare and education?

#2 Zero Hunger

Millions of people around the world are going hungry. How can we improve agricultural practices, food waste and environmental neglect to ensure no one goes hungry?

#3: Good Health & Well Being

What things can be done to keep more people healthy, provide them with affordable vaccines, reduce the amount of growing epidemics, chemical and biological pollution and the contamination of people?

#4: Quality Education

Access to education can help lift people out of poverty. How can we make quality education accessible to everyone, regardless of where they live or how much money they have?

#5: Gender Equality

Women and girls still suffer discrimination and violence just because of their gender. What are some ways that we can increase the number of women who become leaders, managers, members of government and make sure they are given the same opportunities as men and boys?

#6: Clean Water and Sanitation

Many people around the world get very sick because of contaminated water. What are some things we can do to help people gain access to clean water and sanitation?

#7: Affordable and Clean Energy

How can we provide affordable and reliable energy to the billions of people who still rely on wood and charcoal for cooking?

#8: Decent Work and Economic Growth

With so many people unemployed around the world, what can we do to create more jobs?

#9: Industry, Innovation and Infrastructure

For a society to grow, companies must think of creating new opportunities while protecting the environment. How can we provide all people access to

#10: Reduced Inequalities

No one likes to be treated unequally. How can we work on eliminating inequality in society?

#11: Sustainable Cities and Communities

Cities are a fun mix of different people, systems and infrastructures. In an effort to improve air quality and waste management, what are some ideas we can come up with to improve this? How can we create more efficient transportation systems and greener areas that everyone can enjoy?

#12: Responsible consumption and production

With Billions of people around the globe, we create a lot of waste that has a negative impact on the environment. What are some ways that we can change our behaviors and reduce the harmful waste that we produce?

#13: Climate action

Climate change affects everyone on the planet. The carbon emissions from gas powered automobiles are creating harmful gasses that are heating up the planet. How do you think we can create cleaner and safer technologies that won't be harmful to the environment?

#14: Life below water

Oceans provide food, medicines, biofuels and jobs for millions of people. How can we go about protecting the oceans, seas and all of the living species underwater from plastic debris and illegal fishing that is killing off the marine life?

#15: Life on land

Deforestation affects the land, animals and humans on the planet. What ideas can you propose to help protect the trees, wildlife and help educate people on the importance of protecting everything in nature?

#16: Peace Justice and Strong Institutions

Nobody wins in war. How can we find better solutions to conflicts among nations? In order to live in a peaceful society, how can we reduce violence, corruption and illegal trade?

#17: Partnerships for the Goals

How can we find ways to collaborate with others who have similar interests in the protection of the planet, it's population and find ways to more supportive with one another?
